

Foam Fabricators Inc. and the Automotive Industry

It's a simple concept; we don't talk people into buying our products, we work with them to create solutions. That's not "selling" - it's helping.

A STRONG LEGACY

For over 50 years Foam Fabricators, Inc. has been creating enduring partnerships with customers as it built a molded foam plastics company that reaches from coast to coast, in the U.S. and Mexico. Our solid history features consistent growth, stability and profits. We are the "safe harbor" in our industry.

A COMMITMENT TO THE INDUSTRY

Back in the late 1980's, we began molding automotive OEM componentry in full production volumes. Today, we support dozens of automotive production programs, and are presently further expanding our capacities/capabilities to help support existing and new customers deal with projected growth.

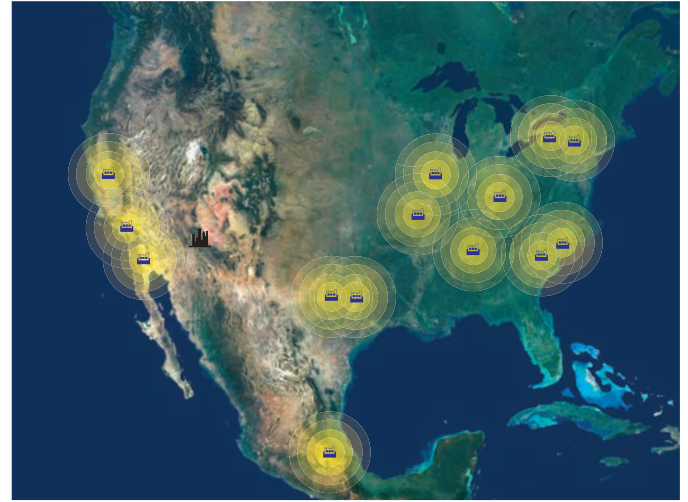

Foam Fabricators Inc. and the Automotive Industry

A PART OF YOUR VALUE PROPOSITION

Molded foam decreases the weight of parts and components, thereby improving the fuel efficiency of an automobile and its safety.

We carefully consider your production needs and the logistics of your facility as we help to develop molded foam products for efficient, sustainable manufacturability.

A SYSTEM MAPPED FOR SERVICE

Foam Fabricators Inc. structured its manufacturing and distribution systems around population centers and commercial zones. We maintain a light environmental footprint through our network of plants. You then receive products, through a short supply chain, on time with minimized shipping costs.
